

Carnival of Steel

2009 Richland College *Carnival of Steel* Inclement Weather Plan: Location and Logistics

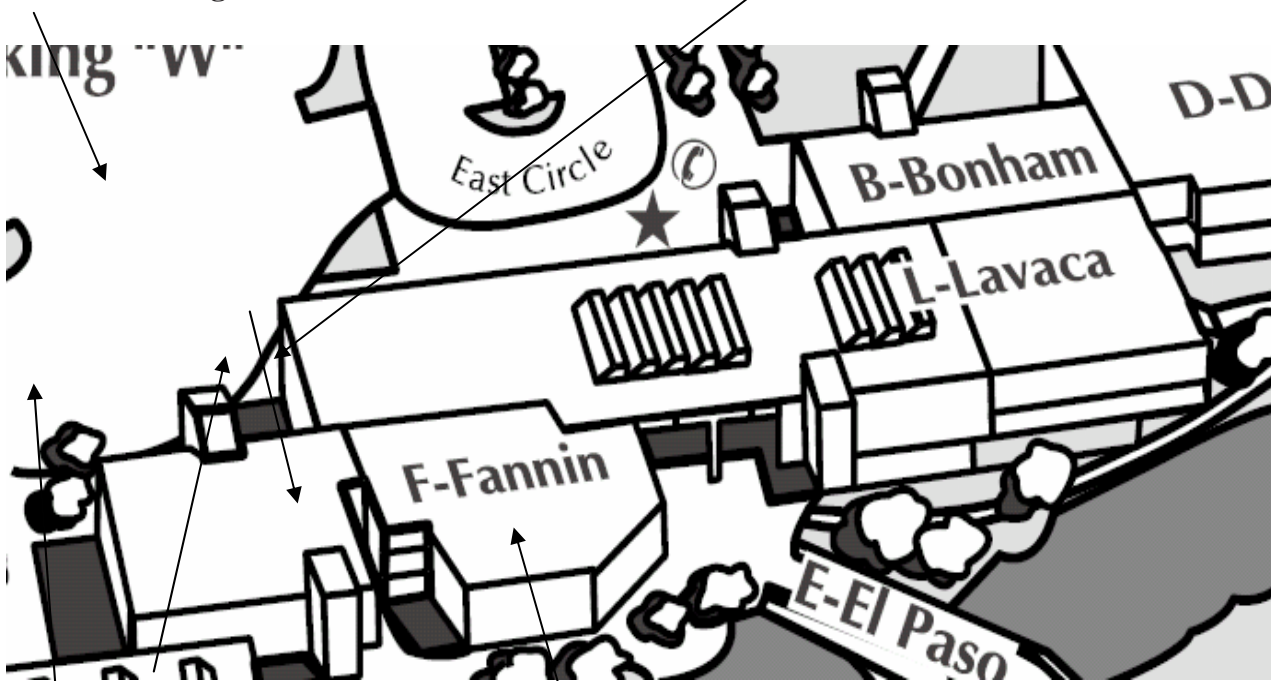

On Friday, April 17, 2009, Derrick Logozzo and COS Staff will make a decision based upon weather forecasts if the Festival Day-time Performances will be held outdoors as planned or move to the Rain Site Locations indoors within Fannin Hall. Actual room locations will include Fannin Performance Hall Stage and, if necessary, the Fannin Instrumental Music Hall. When decided, all ensemble directors will be contacted via email to ensure proper advance notification for all to make plan adjustments.

Below is an adjusted site map for the COS Inclement Weather Plan.

2. Performer & Equipment

Vehicle Parking (Several Lots exist)

3. Travel Path to Performance Site

1. Loading Dock Area 1

4. Fannin Hall Performance Site

5. Loading Dock Area 2

[Performance Hall]

1. **Unloading:** Unload equipment by the side walk in Loading Dock Area 1 and transport to the "Performance Hall" via the dock deck. *Instrument cases should be packed on trucks/buses and not stored around the performance area due to space constraints.*
2. **Parking:** There are several lots from the street in to the loading area. Park trucks and buses in the back of an open lot. Attendants may direct you to these areas.
3. **Set-Ups:** A COS attendant will direct groups to the Fannin Performance Hall Stage and when to begin set-up times in each Area.
4. **Tear-Downs:** After each performance, packing & moving equipment out of the Performance Area back to the Loading Dock Area 2 needs to occur within the 20-minute allotted time. A COS attendant will direct groups in this process.
5. **Loading:** Trucks may be loaded in Loading Dock Area 2 if necessary to reload equipment after the group performance. The vehicle must then be re-parked in an open lot for attending the rest of the event upon loading completion.

*All locations will be marked with posted signs. *All drivers must adhere to traffic flow needs in Loading Dock Areas.
