Interactive Mathematics DMAT 0097 Homework Assignments

In order to receive credit for your homework problems (to take the test covered by the problems) you must: 1) number each section and number each problem you work in that section, 2) work the problems out completely (showing all of your steps) in your spiral, and 3) check your answers from the back of your PAN. Homework problems will not be accepted without the work shown. Illegible, sloppy work will not be accepted.
