

Credit Program Review Template Discussion Points

1. Summarize the conversations and review sessions you have had concerning this year's program review data with program coordinators and lead faculty.
2. What are the strengths for this discipline/program? How can we build on those strengths to perform at an even higher level?
3. What are the biggest challenges faced by this discipline? How can we use our college core competencies/strategic advantages to address these challenges?
4. How does enrollment for Richland's program compare to our sister colleges, if a comparable program exists? Discuss differences and the reasons for the differences.
5. Are there any differences in student success between ethnic groups for the gatekeeper courses (if appropriate) in your division? If differences exist, how will you address them?
6. Summarize what students should think, know or do as a result of taking courses in this discipline. Discuss how you have or will use the data generated from assessment activities for this discipline. What actions will you take to address the opportunities for improvement and how will you document this action (DAP, PIIP, Benchmarking)?
7. Identify the professional development needs for faculty in this discipline.
8. Is there a need additional full-time or adjunct faculty? If so, please explain your rationale?
