Words from the Director of Facilities

Up and Running... and More to Come!

Sabine Hall is attracting much attention as the 16 laboratory/classrooms and bookstore are in full operation. The large atrium seating area on both floors facing the landscaped plaza is near capacity all day with students studying or in casual conversation. Reservations are coming in for the large meeting rooms.

At the same time, the Adaptive Remodel project expected to begin in February after four months of planning and review. Jerry Owens is the point person for Facilities Services in this \$5.8 million dollar venture that will affect many buildings on campus including Wichita, Hondo, Pecos and El Paso over the next year.

If your birthday is in January and your name wasn't listed. Please let us know in P131.
