

Welcome!
Welcome!

We would like to welcome Ronald Foster, Coordinator of Facilities Services/Life Support Systems, who was hired on Aug. 23, 2010.

Ronald is a native of Hitchcock, Texas, and holds a B.S. in Mechanical Engineering Technology, from the University of Houston in Houston, TX; he was introduced to Richland College as an instructor/coordinator for the "ROCK ON!" Program, Summer 2009. Ronald resides with his wife Sherry in Grand Prairie; they have a son (22 years old) and daughter (20 years old). Congratulations and welcome to Facilities.

September Birthdays!

Words from the Director of Facilities

Adaptive Remodel ...the Movement

As the large Adaptive Remodel project directed by the District's bond office draws to a close for Hondo, Wichita, El Paso, Thunderduck Hall and Pecos, Facilities Services and GCA employees have been heavily involved with moving furniture, signs, locks... and people!

The planning and scheduling with faculty, staff, IT and the contractors has evolved into a movement of people and equipment to offices and classrooms in August and September that will continue through October. All divisions of Facilities Services have exhibited extra effort to keep this process moving forward while completing regular tasks, duties and special assignments.

The next phase of Adaptive Remodel will involve alterations and modifications to offices and classrooms that will be done in house with Facilities staff and through small contractors. The face of Richland College will continue to change to meet educational requirements of the future. I am proud of the part each of you plays in this movement.

If your birthday is in September and your name wasn't listed. Please let us know in P131.

RICHLAND FACILITIES SERVICES COLLEGE ACKNOWLEDGEMENTS

Thursday morning, at 7 AM, Kenneth Hart brought over a crew of guys to unload a mini mobile that was stuffed with our new shelving parts for Central Supply. Kenny and I ran the fork lifts and the guys listed below worked like an absolutely, well oiled machine in getting the pallets offloaded and the shelving parts stacked up in our Central Supply building.

These guys formed a line and in perfect unison, tossed the boxes to each other and stacked them up. It was amazing to watch, I wish I had filmed it so everyone could see just how in sync they were in their efforts. Something that would have taken me 5 to 6 hours to do alone, they accomplished in less than an hour.

Even though these guys are GCA workers, they truly embodied the Thunderduck spirit this morning and I greatly, greatly appreciate the coordination efforts of Kenneth Hart and these hard working guys. I just wanted you to be aware of their contribution.

Lisa Eades
